Synopsis and Facilitators:
Join us for a discussion on the Future of Capital Projects: Types of Projects, Who Will be Executing them, and How.

Participants will have the opportunity to attend two of three sessions listed below:

Session 1: Future Projects: Types of projects the industry will be doing in the future: A discussion of modular installations, single use systems, personalized medicine, and continuous manufacturing.

Session 2: Team Diversity: A conversation about forming diverse teams, attracting talent, and inspiring the next generation to pursue careers in STEM.

Session 3: Work Practices: Project delivery work practices and the use of new technology to meet the demands of precision, speed, and cost: Sample topics include use of BIM, LEAN pull planning, drones for surveying, 360 Videos, and Augmented / Virtual reality.

About Fluor:
Fluor’s San Francisco office, established in 1996, has successfully executed more than 150 projects with clients such as Bayer, Amgen, Genentech, Gilead, GSK, Boehringer Ingelheim, IDEC, Nektar, and Novartis. Fluor is a preeminent biotech and pharmaceutical engineering, procurement, construction, project management, and validation (EPCMV) project leader on the West Coast, providing fit-for-purpose solutions that align with their clients’ capital expansion plans. Fluor’s approach is relationship driven, supporting both small projects and large capital programs.
