NEW DATE!

Wednesday,
December 11, 2019
Noon – 5:00 pm

Gilead Sciences
B600 Harbor Conference Room
4100 Avenida de la Plata
Oceanside, CA 92056

PLEASE JOIN US FOR A HALF DAY MEETING

Controlled Temperature Storage Strategies
For a Changing Market

Register now at: atdevents.net

TOPICS AND SPEAKERS:
Vendor Relations & How to Build Contingency Into Your Cold Chain
By Kevin Hickman, Senior Manager, Supply Chain Distribution, Gilead Sciences

Designing Cryogenic Infrastructure to Scale
By David Lewandowski, Global Product Marketing Manager, Automated Cryostorage, Brooks Life Sciences

Predictive Temperature & Energy Monitoring for Refrigerated Storage
By Larry Newman, Sr Manager, EHS Asset Services, Global Operations, Life Sciences Solutions, Thermo Fisher Scientific

Mitigating Risk in your Temperature-Controlled Supply Chain
By Sue Blecman, VP Global Strategic Business Development, Cryoport

ISPE® San Diego Chapter
Please Join Us For A Half Day Meeting

COLD STORAGE
Controlled Temperature Storage Strategies For a Changing Market

Wednesday, December 11, 2019 – Noon to 5:00 pm

Sponsored By:

Gilead Sciences
B600 Harbor Conference Room, 4100 Avenida de la Plata, Oceanside, CA 92056

Program Managers:  Audrey Bullwinkel, Project Estimator, CRB
                     Jeff Landgraf, Project Director, Kitchell
                     Martha Sosa, Validation Manager, Ajinomoto Bio-Pharma Services

Topics and Speakers:
Vendor Relations & How to Build Contingency Into Your Cold Chain
By Kevin Hickman, Senior Manager, Supply Chain Distribution, Gilead Sciences
The pharmaceutical supply chain world is now global, and as such we have shipments of raw materials, supplies, and drug
substance/products moving throughout the global networks. The one constant of global supply chains is that something will eventually go
sideways and put your shipment at risk. When shipping temperature sensitive materials, it is critical that you design your shipping processes
and lanes to minimize risk and maximize contingency plans. The best way to do this is to partner with vendors who understand the
importance of your shipment and risks that it faces in the real world. This presentation will talk about how to source, induct, manage, and
learn from true partners in your supply chain network, and how to work with them to develop a robust
and contingent network to ensure your
customers and patients receive their shipment under the right conditions, in the right timeframe, and most importantly, with the right quality.

Designing Cryogenic Infrastructure to Scale
David Lewandowski, Global Product Marketing Manager, Automated Cryo Storage, Brooks Life Sciences

Predictive Temperature & Energy Monitoring for Refrigerated Storage
By Larry Newman, Sr Manager, EHS Asset Services, Global Operations, Life Sciences Solutions, Thermo Fisher Scientific
Using the latest generation of web-based tools and wireless sensor technologies, we will look at real time health monitoring, benchmarking,
data archiving, and energy management of mission critical cold storage assets in life science and pharmaceutical companies. Tools that
predict failures before they happen and help you reduce energy, maintenance and parts costs will be reviewed. The clear difference
between PM (Preventative Maintenance) and PdM (Predictive Maintenance) will be examined along with which methodology results in better
energy savings.

Mitigating Risk in Your Temperature Controlled Supply Chain
By Sue Blecman, VP Global Strategic Business Development, Cryoport

Schedule:
Noon – 1:00 pm  Registration and Networking Lunch
1:00 – 4:00 pm  Speaker Presentations and Q&A
4:00 – 5:00 pm  Networking Happy Hour
Sue Blecman, VP Global Strategic Business Development, Cryoport

Sue has more than 30 years of Strategic Business Development, Sales, Marketing and Consulting experience in the Life Sciences industry with domestic and global responsibility.

Her career began in a startup division of Abbott Laboratories providing clinical chemistry, oncology, drug and infectious disease analyzers and diagnostics to hospital and reference laboratories – including the first HIV test kit, and first rapid “Plus-Minus” tests for pregnancy, strep and other infectious diseases.

After gaining exposure to all therapeutic areas with Abbott and a thirst for knowledge, Sue’s path moved to the surgical community providing implantable devices, surgical instrumentation, and regenerative bone and tissue products to oral and maxillofacial surgeons before the area of Regenerative Medicine was recognized in the industry.

From there she spent 15 years in the Clinical Research and Commercial arenas, beginning with first-to-market devices that captured primary and secondary endpoints directly from patients participating in clinical trials. Subsequent experience included clinical research and financial software, data analytics, custom reporting, wound care imaging and consulting services for Clinical and Commercial clients.

Her experience includes working for high-growth startup, privately held and public companies and divisions such as Abbott and Almac Clinical Services, and early stage companies later purchased by Zimmer, Philips Healthcare and IQVIA.

Sue joined Cryoport over two years ago where she is currently VP Global Strategic Business Development, supporting clients that are blazing new trails in Regenerative Medicine. Her passion continues to be involvement with the most innovative, first-to-market research-based products, services and consulting that positively impact and save lives.

Kevin Hickman, Senior Manager, Supply Chain Distribution, Gilead Sciences

Kevin has over 27 years in the pharmaceutical and biopharmaceutical supply chain, distribution and transportation management world. His primary focus has been on operational and quality improvements while also maintaining or achieving additional cost savings through gained efficiencies. He has extensive experience overseeing the daily operations of in-house distribution centers as well as over 19 years of experience managing third party warehousing, transportation, cold-chain and contract manufacturing vendors and suppliers. He has had responsibility in managing all distribution and logistics operations and vendors for both domestic and international customers and partners. Kevin has experience in managing shipping lanes for all temperature ranges and using various active and passive solutions to meet all shipment size requirements from small parcel up to sea container.

Kevin has worked for various manufacturers over the years and has lived in multiple regions of the country, most recently moving to the San Diego area to work with Gilead Biologics in Oceanside.

David Lewandowski, Global Product Marketing Manager, Automated Cryo Storage, Brooks Life Sciences

In his current role at Brooks, David visits with leading research, manufacturing and patient care facilities who require cryogenic infrastructure to support their efforts. He recently completed his elected term as President for the International Society of Biological and Environmental Repositories (ISBER.org). As President, he partnered with the Society of Cryobiology to create and publish the first Liquid Nitrogen-Based Storage Facility Best Practices. This consensus document includes contributions from over 20 experts with a broad range of expertise.

David enjoys working with managers in supply chain, operations, facilities, QA/QC and others to define systems which are adaptable, scalable and repeatable.

Larry Newman, Senior Manager, Environmental Health and Safety Asset Services, Global Operations Life Sciences Solutions, Thermo Fisher Scientific

Larry Newman has been in the metrology industry, holding various technical positions, for the past 30 years. During his tenure, he spent 18 years calibrating, repairing and training other technicians and users on proper pipette use, calibration and repair. He has been a consultant to pipette manufacturers and pipette calibration system manufacturing companies.

At Thermo Fisher Scientific, he supports internal customers for all of their asset management and metrology needs. Larry currently resides in Oceanside and is married with two daughters.
REGISTRATION INSTRUCTIONS

COLD STORAGE
Controlled Temperature Storage Strategies For a Changing Market
Wednesday, December 11, 2019

To Register and Receive an immediate receipt, follow these instructions:
1) Click on the link below then log on using your username and password: http://www.atdevents.net/register.php
2) Click on the appropriate event. Here is where you can download the event flyer also.
3) Scroll through the list of registration options and find the one that applies to you.
4) Select the payment option of your choice and follow instructions to pay. Make sure to go through all of the steps until payment is confirmed. Since our site has to go to the merchant account site, there are a couple extra clicks involved.

ISPE California Chapter Members:
If you are an ISPE Member in California, please do not set up a new account, as you should already be in our system (takes a few days after joining). You will need your username and password to log on.

How To Find Your ISPE Member Number or Update Your Account to a Member Account:
To update your existing account to a Member account, or to add your new ISPE Member account to our website, please forward your confirmation email from ISPE or your ISPE Membership information to Rob Fleming (rob.fleming@yahoo.com). We need your Chapter name, your ISPE Member number and expiration date. To retrieve this information, log onto the ISPE website. Click on "Account" on the top right side, then "My Account". Your Membership information (not including your chapter affiliation) is on the left side. Please take a screen shot or make a pdf of the page, then email it along with the name of your chapter to Rob Fleming to update your profile on the atdevents.net site.

ISPE Members of Other Chapters:
You will not be in our system unless you have previously set up an account. Please follow instructions for Non Members below then follow the instructions to update your account to a member account (see above).

Non Members:
If you do not have an account, you can set one up on the site using letters (not numbers) as your username.

Fax Registrations:
Fax your completed Registration Form with credit card payment to (949) 266-8461.

Pay by Check:
Register online to hold your spot. Make check payable to:
ISPE San Diego Chapter, 5319 University Dr., Suite 641, Irvine, CA 92612. Tel: 949-387-9046. Tax ID#33-0551783.

HELP:
Please email Rob Fleming (rob.fleming@yahoo.com) for assistance with registration.

Registration Fee includes:
Presentations after the meeting (if approved by the speakers), light lunch, happy hour and free parking.

Note: If you are between jobs or your company does not support your registration fees, please contact Kimberly Syre (ksyre@cox.net) for reduced fee options or sponsorship opportunities.

Cancellations:
Cancellations must be received via email to: rob.fleming@yahoo.com by December 2, 2019 for refund. After the cancellation date if you have reserved a space but do not attend, your payment MUST be remitted, however, an alternate person may attend in your place. If the alternate is not a member, they will need to pay the additional amount for non-members. Name badges will be given at the on-site registration desk.
