About The Featured Companies

Poseida Therapeutics, Inc. is a clinical-stage biopharmaceutical company leveraging proprietary next-generation, non-viral gene engineering technologies to create ground-breaking, life-saving cell and gene therapies for patients with high unmet medical needs. Established in 2015, Poseida Therapeutics uses broad gene engineering platform technologies to bring new and better treatments to patients with serious diseases like multiple myeloma, solid tumor cancers like prostate and breast cancer, and rare genetic diseases in the liver.

Poseida is advancing a wholly owned pipeline of product candidates based on their core proprietary technology platforms, including non-viral piggyBac DNA Modification System, Cas-CLOVER™ site-specific gene editing system and nanoparticle- and AAV-based gene delivery technologies.

Poseida Therapeutics completed a crossover financing round just prior to an initial public offering in July 2020, going public on the Nasdaq under the ticker symbol PSTX.

Samumed is a leader in medical research and development for tissue-level regeneration. With their platform's origins in small molecule-based Wnt pathway modulation, Samumed develops therapeutics to address a range of degenerative diseases, regenerative medicine and oncology. The focus of Samumed's technology platform is on the ability to modulate the Wnt pathway in select tissues with small molecules. To date, Samumed has discovered numerous new biological processes related to the Wnt pathway, identified novel biological targets, and developed small-molecule drugs that modulate Wnt activity. Samumed's drugs in clinical development include lorecivivint for osteoarthritis (in Phase 3), SM08502 for numerous cancers, and a broad pipeline that ranges from neurology to degenerative disc disease.

BioMed Realty, a Blackstone portfolio company, is a leading provider of real estate solutions to the life science and technology industries. As of December 31, 2020, BioMed owns and operates high quality life science real estate comprising 13.1 million square feet concentrated in leading innovation markets throughout the United States and United Kingdom, including Boston/Cambridge, San Francisco, San Diego, Seattle and Cambridge, U.K. In addition, BioMed maintains a premier development platform with 3.0 million square feet of Class A properties in active construction to meet the growing demand of the life science industry.
