

CALL FOR PROPOSALS
ISPE 2018 QUALITY MANUFACTURING CONFERENCE
4 – 6 June 2018 Arlington, VA

Conference Overview

Considered to be the most comprehensive regulatory conference in the industry, this conference offers attendees the opportunity to hear first-hand from global regulators. Delegates will gain invaluable insights and strategies to effectively navigate the increasingly complex nature of regulatory compliance and quality expectations.

This conference is designed for a global audience of pharmaceutical professionals from pharma, bio, and generic companies and regulatory agencies, including those at the executive and management levels, pharmaceutical scientists and engineers, manufacturing supervisors, and suppliers.

Call for Proposals Timeline

Opens: 15 December 2017
Deadline: 01 February 2018
Committee Review: 15 December 2017 – 13 February 2018
Notification: 15 February 2018

By submitting a proposal, you acknowledge that, if your proposal is accepted, your organization will support your attendance at the conference(s). Accepted Quality Manufacturing Leaders and Speakers are responsible for their own travel and accommodations and receive complimentary registration for the conference.
