ISPE Award Winners

The Brian Sixsmith Fellow Award
Roger Freestone has been an active member of the Central Region for longer than most of us remember, organising countless events on behalf of members, and supporting the smooth running of the committee. Roger has been secretary since the Central Region was started and has continued his support for ISPE even after retiring from industry.

Manufacturers Significant Contribution Award
Covance has supported ISPE in hosting tours, providing venues and speakers for Northeast Region, and supporting staff in their volunteer work for ISPE. They have supported a committee member in the Northeast who brings great energy and enthusiasm to increasing ISPE’s network within the Facilities Management community.

Supplier Significant Contribution Award
Rockwell Automation is a company who have supported UK events by providing speakers, venues and sponsorship. They have made an active contribution to both the Central and Southern Region, supporting two of their staff as committee members. In particular, Dean Chespy of Rockwell played an instrumental role in engaging talented speakers for the annual conference.

Member Award
Stephen Bryan of Astra Zeneca is a member who has supported ISPE in the UK and internationally. Stephen has been an active member of the Northwest committee for many years. He has served on international Task Teams for the Pharmaceutical Engineering Article of the Year, and the Asset Management Good Practice Guide.
Happy New Year!

It is great to be writing about the annual event again and it seems it gets stronger each year. The morning after the event is always ISPE board meeting time and although we were all a bit bleary eyed this year, the mood was buoyant after such a fabulous evening.

New challenges face the committee in 2018, with initiatives from Tampa to give more ownership to local affiliates to manage the ISPE website pages for the UK and to engage more on social media platforms.

The ISPE have now developed a network of ISPE young professionals with a view to creating their own committee in 2018. If you are an ISPE member and you are interested in becoming a member of this board, or know someone who would be great, please get in touch! The NW region is especially keen for new YP members and with so many manufacturers in this region, we are hoping the right people are out there.

Here’s to 2018!

SUMMER CONFERENCE
Latest Developments in ISPE Guidelines and Industry Regulations

Wednesday 27th June 2018
National Conference Centre at the National Motorcycle Museum
Coventry Road | Bickenhill | Solihull | West Midlands | B92 0EJ

The ISPE UK Affiliate is pleased to announce a new One Day Summer Conference on ISPE Guidance and latest regulatory updates.

The regulatory environment is always under constant review. The ISPE guidance documents are therefore regularly updated. In this conference we will be taking a look at some of the most recent and upcoming ISPE guidance documents, outlining some of the key updates and the reasons for them.

Topics intended to be covered (Detailed Programme coming soon)
• Risk MAPP
• Sustainability
• Oral Solid Dosage Forms
• Decommissioning and DACH Containment Manual
• GAMP Data Integrity and Global Information Systems
• Good e Clinical Practice
• Single Use Technologies

Registration:
ISPE Members: £70
Non Members: £270 (including 1 year’s ISPE Membership)
Associated Organisation members**: £160

Places are limited so to register, please visit the ISPE website.

** Members of IChemE, Pharmig and ABPI should indicate their Organisation and membership reference when registering.

Please note that membership of ISPE now includes free electronic access to the ISPE Good Practice Guides. There is also a member's discount for the other Guides.

Please also note ISPE speakers are experts in their field volunteering their time and the programme may be subject to change.
