

Table of Contents

1	Introduction	7
1.1	Purpose and Objectives.....	7
1.2	Scope.....	7
1.3	Benefits.....	8
1.4	Regulatory Guidance	8
1.5	Key Concepts/Key Terms.....	9
2	Related Standards.....	11
2.1	Standards.....	11
3	User Requirements Specification	13
4	Types of Controlled Temperature Chamber.....	15
4.1	Freezers.....	15
4.2	Refrigerators	16
4.3	Cold Rooms	16
4.4	Stability Chambers, Incubators/Incubator Shakers.....	17
5	Commissioning	19
5.1	Scope of the Commissioning	19
5.2	The Commissioning Strategy.....	20
5.3	Commissioning Activities at the Design Phase.....	22
5.4	Commissioning Activities during the Installation Phase.....	23
5.5	Handover, the System Manual, and Training	26
5.6	Safety.....	26
6	Testing Strategy	27
6.1	Outcomes.....	27
6.2	Risk Assessment.....	27
6.3	When to Perform Temperature Mapping.....	28
6.4	Factors Influencing the Mapping Strategy	29
7	Qualification.....	35
7.1	Qualification Considerations	35
7.2	Qualification Science and Risk-Based Approach.....	36
8	System Monitoring	37
8.1	Temperature Sensors.....	37
8.2	Number Required and Location of Monitoring Probes.....	38
8.3	Considerations for Permanent Sensor Placement.....	39
8.4	Thermal Dampening Fluids for Temperature Monitoring Probes	40
8.5	Determining Alarm Set Points and Alarm Delay Settings.....	41
9	Periodic Evaluation and Frequency of Thermal Mapping Studies.....	43
9.1	Handling Excursion Documentation.....	48
10	Operational Issues.....	49
10.1	Challenging the Area with Operational Activities.....	49
10.2	Open Door Recovery Test.....	49
10.3	Power Outage/Thermal Degradation Test (recovery from power failure or power interruption).....	49

11	Packaged Transport Systems	51
11.1	Active Shipping Containers: Unit Load Devices.....	51
11.2	Temperature Controlled Trailers.....	54
11.3	Trailer Design.....	54
11.4	Insulation Degradation.....	55
11.5	Trailer Validation Approach.....	55
11.6	Trailer Loading Patterns.....	56
12	Maintenance.....	57
12.1	Cleaning of the Coils.....	57
12.2	Check the Condensate Pipework.....	57
12.3	Functional Testing of the Unit Coolers/Defrost Elements.....	57
12.4	Leak Testing.....	57
12.5	Thermal Scanning.....	58
12.6	System Alarms.....	59
13	Appendix 1 – Example User Requirements Specification	61
13.1	URS Typical Content.....	61
13.2	Sample URS.....	65
14	Appendix 2 – Sample Document: Number and Location of Mapping Sensors....	73
14.1	Introduction.....	73
14.2	Approach.....	73
14.3	Sensor Placement.....	74
14.4	Monitoring System Sensor Placement.....	74
15	Appendix 3 – Example Use of Measurement Uncertainty.....	77
16	Appendix 4 – Sample Report Recommending the Location for Freezer	83
16.1	Introduction.....	83
16.2	Product Temperature.....	83
16.3	Discussion.....	86
17	Appendix 5 – Science and Risk-Based Development and Use of the Risk Assessment.....	87
17.1	Defining the Risk Assessment Process.....	87
17.2	Scoring the Risk Assessment.....	89
18	Appendix 6 – Example Testing Strategies.....	91
18.1	Example 1: Mapping Strategy for a Walk-in Conditioned Space.....	91
18.2	Example 2: Mapping Strategy for a Refrigerator.....	93
18.3	Example 3: Warehouse Mapping Layout and Rationale.....	95
18.4	Example 4: Test Document/Protocol.....	98
19	Appendix 7 – Templates and Attachments	99
19.1	Example Science and Risk-Based Approach for Periodic Review of a Controlled Temperature Chamber ..	99
19.2	Example Job Hazard Analysis Worksheet.....	103
20	Appendix 8 – References	107
21	Appendix 9 – Glossary.....	109
21.1	Acronyms and Abbreviations.....	109
21.2	Definitions.....	110
